July 18, 1935

ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING

AND CONSTRUCTION PRACTICE

Volume 114

January to July, 1935

McGRAW-HILL PUBLISHING COMPANY, INC.

330 W. 42d St.

NEW YORK CITY

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 114—January to July, 1935

	Page
Jan. 3	1 to 34
Jan. 10	35 to 68
Jan. 17	69 to 112
Jan. 24	113 to 146
Jan. 31	147 to 182
Feb. 7	183 to 238
Feb. 14	239 to 270
Feb. 21	271 to 304
Feb. 28	305 to 338
Mar. 7	339 to 372
Mar. 14	373 to 404
Mar. 21	405 to 438
Mar. 28	439 to 472
Apr. 4	473 to 508
Apr. 11	509 to 542
Apr. 18	543 to 576
Apr. 25	577 to 610
May 2	611 to 644
May 9	645 to 692
May 16	693 to 726
May 23	727 to 760
May 30	761 to 794
June 6	795 to 830
June 13	831 to 864
June 20	865 to 898
June 27	899 to 932

A

AERODYNAMICS

Aerodynamics and the civil engineer. W. W. Pagon, pt. 5 vortices, eddies and turbulence as experiences in air movements *582
Pt. 6 engineering meterology 665
Pt. 7 wind velocity in relation to height above ground *742
Wind suction on building roofs. L. R. Flook ..... l 259
Wind tunnel, full scale, completed in France 388

AIRPORTS

Hangar at Dixon, Ill., built of discarded T-rails. F. N. Wildish *490
Ithaca improves its airport with relief labor. H. W. Eustance *557
San Francisco airport walls of light sheet-metal. G. D. Burr *491

Alleghency County Authority:
Changes in commissioners n401

American Assn. of Engineers:
Celebrates twentieth anniversary n757

American Chemical Society:
Building material developments to be topic at meeting n571

American Concrete Institute:
Convention in New York City 323

American Engineering Council:
Efforts to add engineers to federal service n26
Integration of engineering societies stressed at meeting n110
L. V. Reese joins staff n538

American Institute of Mining Engineers:
New York meeting discusses underground rock-dust control 321

American Railway Engineering Assn.:
Officers elected at annual meeting n*432
Resume three-day annual meetings. 425, e428

American Road Builders Assn.:
Can the highway industry coordinate? .. e107
Washington convention—action taken on federal highway policies 160, e176

American Shore & Beach Preservation Assn.:
Beaches, tides and sand dunes discussed. n108

American Society for Testing Materials:
Current research activities 449

American Society of Civil Engineers:
Administration of work relief endorsed. n606
Code of ethics n24
Walter E. Jessup named to new post of field secretary n363
Metropolitan Section meets in New York n300
New York meeting n108, e106
Non-technical activities e260
Proposed amendment to the constitution. n926
Report of annual meeting 131, e136
Arthur S. Tuttle elected president n*109
Younger blood e176

American Society of Municipal Engineers and International Assn. of Public Works Officials:
Set up joint secretariat n110

American Society of Photogrammetry:
Report of meeting n651

American Society of Testing Materials:
Philadelphia convention n400

American Water Works Assn.:
Cincinnati convention 713
Illinois section meeting n606
Indiana Section discuss source, distribution and purification problems n435
Progress and a program e647
Smoke out the conclusions e718

American Wood Preservers Assn.:
New York meeting-resistance of creosoted piles to borer attack in tidewater 383
Report of annual meeting n180

AQUEDUCTS

Colorado River:
Additional work financed n856
California continues work on aqueduct. n687
Concrete experimental work under desert conditions *118
Principles of siphon design. D. B. Gumensky *899
San Jacinto tunnel contract suspended. n141
San Jacinto tunnel contractor declines to surrender contract n178
San Jacinto tunnel—consulting board appointed n362
San Jacinto tunnel operations taken over by California District n298
San Jacinto tunnel taken by California District n330
Spud for use in tunnel marks line and grade *257
Ten miles of tunnel awarded n24
Tunnel driving record e296
Tunnel No. 1 holed through n535
Tunneling record for November n143
Ventilating pipes in tunnel support electric wires *56
High Line Canal flume rebuilt with concrete floor and timber sides *353

Architects:
Registration law for architects in Maryland n891

Asphalt:
Electric heating units help unload liquid-asphalt tank cars 477
Technology of emulsions for surfacing floors. L. Kirschbraun *276

Associated General Contractors of America. See Contractors.

Association of Highway Officials of the North Atlantic States:
Baltimore meeting n301

B

Ballard, J. I., made editor of Western Construction News *n650

Baltimore:
Municipal improvement planned n792

Beach protection at Cudahy, Wis., consists of permeable concrete groins. E. A. Howard *594
Beach protection on California coast roads *253
Beaches, tides and sand dunes discussed by American Shore & Beach Preservation Assn. n108

BEAMS

Austrian fatigue tests of reinforced concrete beams 697
Continuous beams. J. D. Gedo ..... l 21
Continuous beam design by direct distribution. Morecll, Turneaure ..... l 295
Continuous beams. Schulze & Rose ..... l 259
Deflection of beams. Robins Fleming .. l *751
Distribution of horizontal shear analyzed for special sections. G. N. Cox *671
Rigid-frame design in the Bureau of Yards and Docks. G. A. Hunt *915
Shear spiral for composite steel and concrete slabs *54
Sign conventions. L. E. Grinter ..... l 359
Sign conventions for bending moments in rigid frames. Robins Fleming ..... l *257
Solving rigid frames. Schulze and Rose. l 817
Torsion testing machine for I-beams and column section. Bruce Johnston *310

BONDS

City's opportunity e462
Connecticut authorizes bonds for Merritt highway work n893
Denver approved bond issue for sewage plant n788
Minneapolis bond sales reduce loan for sewers n574
New York Port Authority sells bonds .. n404
New York State bond issue proposed for unemployment n502
PWA and RFC improve plant for private sale of works bonds n300
San Francisco Golden Gate bridge bonds sold n140

BOOK REVIEWS

British attack on unemployment. Hill & Lubin 326
Building to the skies. A. C. Bossom .. 174
Elements of specification writing. R. S. Kirby 460
Elements of water supply engineering. E. L. Waterman 174
Elimination of taste and odor in water. J. R. Baylis 784
Enquiry on national public works 600
Flow of water in flumes. F. C. Scobey .. 174
Gasoline tax in the United States. F. G. Crawford 174
Hydrographie. Friedrich Schaffernak .. 921
Lumber grade-use guide 174
Mathematical treatise on vibrations in railway bridges. C. E. Inglis 460
Modern housing. Catherine Bauer 460
Outline of town and city planning. Thomas Adams 600
Practical acoustics for the constructor. C. W. Glover 326
Practical designing in reinforced concrete. M. T. Cantell 327
Principles of highway engineering. C. C. Wiley 921
Road and rail in forty countries. Paul and A. Albitreccia 600
Structural design in steel. T. C. Sheed .. 327
Structural theory and design. Sutherland & Bowman 32
Theory of superstatic structures. J. D. Gedo 46
Wood structural design data, v. 1 46

Breakwaters:
Pneumatic breakwater at Sebastopol on the Black Sea, Russia *15
Voids in rubble breakwaters in Russia. 15

BRICKS AND BRICKWORK

Allowance for cuts and bats in laying brick paving. Charles Wuest, Jr. *35
Colombia irrigation canals lined with brick. E. M. Crawford ..... l 56
De-aired brick tests. R. B. Keplinger .. 30
De-aired brick and joint fillers and bedding material for brick pagement discussed at N.P.B.A. 29
De-aired paving brick e36
Ohio highway brick curb grouted onto green concrete base *56
Paving brick progress e26
Paving brick standards modified 73
Reinforced brick masonry used in Ohio bridge. J. R. Burkey *32

Bricks and brickwork. See also Pavements.

Bridge accidents and failures:
Safer bridges with more substantial railings. Sigvald Johannesson ..... l *887

BRIDGE CONSTRUCTION

Bellamy River Bridge, New Hampshire, uses bituminized concrete casing for piles in salt water *121
Bonnet Carre spillway crossed by four long trestles. E. E. R. Tratman *12
Bridge-building boom e29
Bridge design. J. R. Burkey *90
Calvert Street Bridge, Washington, D. C., building with fixed derricks on towers. *28
Cape Cod Canal bridges—concrete mixer and batcher for piers *30
Cape Cod Canal bridges and their foundations. H. W. Durham ..... l 13
Cape Cod Canal—sinking open cofferdams through glacial drift *1
Castelmoron, France, bridge reduces amount of centering by precast rib cores. A. E. Bretting *577, e60
Charles River, Mass., concrete bridge deck masked with timber for rustic appearance *15
Dolan Creek, Calif., bridge uses timber arch with metal ring connectors *14
Esla River, Spain—world's longest-span concrete arch bridge *59
Laifour, France, builds hollow concrete arch bridge *59
Little Belt bridge, Denmark, introduces new caisson practice. Anker Engelund. *84
Missouri toll bridge construction at South Omaha, Neb., for future river channel *727; correction ..... l 81
More and more bridges e75
Ohio highway bridge of reinforced brick masonry. J. R. Burkey *32
Oldest pile bridge. H. K. Ellis ..... l 35
Progress on bridge construction in 1934 20
San Francisco-Oakland Bay Bridge:
Batter leg towers for bridge. Purcell, Andrew & Woodruff *86
Hammerhead derricks erect steel towers. H. C. Hunter *86
Sinking deep caissons. Purcell, Andrew & Woodruff, pt. 1 *239; pt. 2 *278. e26
Seattle highway bridge of continuous concrete girders uses steel hanger joints T. D. Hunt *38
Soviet Russia employs pneumatic caissons for bridge foundations M. A. Kienia *418, e42
Weighing bridge reactions with proving rings. Spofford & Gibbons *44

BRIDGE DESIGN

A.R.E.A. bridge impact formula. Theodore Doll ..... l 56
Analysis of rigid viaduct bents. L. C. Maugh *37
Arch bridges e13
Awards for steel bridges n*85
Bridge design trends. J. R. Burkey *90
Continuous bridges e46
Details of design that influence steel bridge economy. A. F. Jordan 354
Expansion of continuous concrete girders of bridge at Marysville, Kan. LaMotte Grover 15
Flat-arch bridge at Coblentz, Germany .. *28
Italian bridge with roadway below high water level of stream *77
Log bridge design. W. A. Burnham *11
Norfolk, Va., viaduct replaces old timber trestle. R. P. Ellison *67
Old Ohio bridge suggests hybrid origin. *5
Richmond's new bridges and remodeled viaduct *80
Rigid viaduct bents. Dana Young .. l *717
Safer bridges with more substantial railings. Sigvald Johannesson ..... l *887
Tests of bridge design by University of Illinois *79

Bridge floors:
Charles River, Mass., concrete bridge deck masked with timber for rustic appearance *15
Composite steel and concrete bridge slabs for Secaucus, N. J., and Little Ferry, N. J., bridges—Shortridge Hardesty. *48

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Bridge renewals and repairs:
Brooklyn Bridge reconstruction plans call for aluminum trusses and floor. *547, e568

BRIDGES

Austin, Tex.:
Curious old cantilever bridge. F. W. Chappell l*919
Balkans:
Save River bridge completed..... n302
Bonnet Carre:
Four long trestles cross spillway. E. E. R. Tratman *12
Cape Cod Canal:
Concrete mixing plant and batching plant for pier work *305
Foundation for bridges. H. W. Durham. l 135
Roller bearings for lift bridge..... n864
Sinking open cofferdams *1
Weighing bridge reactions with proving rings. Spofford & Gibbons. *446
Carlton, Wash.:
Concrete highway bridge—unit prices 470
Castelmoron, France:
Precast rib cores reduces amount of centering. A. E. Bretting....*577, e602
Charles River, Mass.:
Concrete bridge deck masked with timber for rustic appearance *152
Denmark:
Little Belt bridge being built..... n*142
Little Belt bridge construction introduces new caisson practice. Anker Engelund *841
Dolan Creek Bridge, Calif.:
Timber arch uses metal ring connectors *147
Ebey Slough, Wash.:
Highway bridge (unit prices)..... 541
France:
Laifour hollow concrete arch bridge. *597
Germany:
Flat-arch bridge at Coblentz..... *287
Italy:
Submergible highway bridge *771
Lake Champlain:
Vermont plans two bridges across lake. n572
Mare Island, Calif.:
Causeway to mainland n*571; correction 853
New Orleans:
Final cantilever span placed..... n*499
New York City:
Brooklyn Bridge:
Proposed reconstruction plan includes aluminum trusses and floor. *547, e568
Henry Hudson Bridge bids n791
Proposed Henry Hudson Bridge.... n*535
Triborough Bridge—contract let for remainder of foundations..... n300
Triborough Bridge gets PWA funds as Ickes-Moses controversy ends..... n398
Norfolk, Va.:
Viaduct replaces old timber trestle. R. P. Ellison *679
Ohio:
Highway bridge of reinforced brick masonry. J. R. Burkey *320
Omaha, Neb.:
Missouri toll bridge construction *727; correction ..... l 817
Oregon Coast:
Highway bridges (unit prices)..... 897
Portsmouth, N. H.:
Bellamy River bridge uses bituminized concrete casing for piles in salt water *121
Little Bay bridge—weighing bridge reactions with proving rings. Spofford & Gibbons *446
Richmond, Va.:
Five new concrete bridges and one remodeled steel viaduct *808
St. Louis:
Allotment made for municipal bridge approaches n262
Application for proposed highway bridge n722
Railroads propose building approaches. n538
San Francisco Golden Gate:
Caisson for south pier sinks..... n*399
San Francisco-Oakland Bay Bridge:
Batter leg towers for bridge. Purcell, Andrew & Woodruff *865
Berkeley branch of approach built. n*501
Hammerhead derricks erect steel towers. H. C. Hunter..... *867
Sinking deep caissons. Purcell, Andrew & Woodruff. pt. 1 *239; pt. 2 ..... *278, e260
Sodium vapor lighting adopted..... n*925
Steel work advancing west n*26
Towers about ready for cables.... n*363
Seattle, Washington:
Highway bridge of continuous concrete girders uses steel hanger joints. T. D. Hunt *380
Secaucus, N. J., and Little Ferry, N. J.:
Composite steel and concrete slabs. Shortridge Hardesty *484
Sidney Harbour:
Less saving than stated. Ralph Freeman ..... l 461
Spain:
Esla River—World's longest-span concrete arch bridge *599
Washington, D. C.:
Calvert St. bridge constructed by fixed derricks on towers *282
Building accidents and failures:
Vancouver, B. C., Forum building wrecked by unbalanced snowload... n366
Vancouver roof failure aided by poor supervision n573

BUILDING CONSTRUCTION

Belgian exposition building has 282 ft. concrete arches *877
Chicago amphitheatre has unusual structural framing *791
Double glazing keeps out dust, cold and heat 705
Fire resistive structures. E. F. Gallagher ..... l 57
Forest Products Laboratory building uses plywood for walls and roof. L. V. Teesdale *525
French tall prefabricated apartments. *903
Indianapolis department store uses welding in building *587
January permits increase over 1934 .... n299
Labor costs retard building, is opinion of N.E.C. head n606
Los Angeles planetarium's steel ribbed domes. R. McBeanfield *676
Nashville to start PWA financed schools n24
Progress on buildings in 1934..... 208
Recovery measured by men at work. Isador Lubin 192
Rensselaer Polytechnic Inst. — special welded connections. L. W. Clark.... *675
School building construction could be increased n365
Vancouver, B. C., has $2,000,000 possible work n298

BUILDING DESIGN

Cleveland builds experimental house on standardized-room-unit plan *423
Column base-plate design by concrete-beam analogy. J. E. Lothers..... *5
Encased concrete columns. J. C. Schultze ..... l 21
Engineer and his structure e361
Paris carbarn uses truncated conoid shells for roof *771
Sign conventions. L. E. Grinter..... l 359
Sign conventions for bending moments in rigid frames. Robins Fleming..... l*257
Stanford University, Calif., dormitories use light weight welded steel frames. J. B. Wells *380
Wind suction on building roofs. L. R. Flook ..... l 259
Building repairs and alterations:
Los Angeles department store damaged by earthquake makes structural repairs. E. L. Mayberry *415

BUILDINGS

Belgium:
Exposition building has concrete arches of 282 ft. span *877
Canada:
Mounted Police Building, Ottawa—contract let n108
Chicago:
Structural framing in amphitheatre. *761
Cleveland, Ohio:
Experimental house built on standardized-room-unit plan *423
Dallas, Tex.:
Proposed exposition building..... n*927
France:
Paris carbarn with roof of conoid shells *771
Tall prefabricated apartments..... *903
Indianapolis, Ind.:
Welding used in building department store *587
Kansas City auditorium approaches completion *155
Los Angeles:
Planetarium's steel ribbed domes. R. McBeanfield *676
Louisiana:
Seven new buildings for Louisiana University n140
Madison, Wis.:
Forest Products Laboratory building uses plywood. L. V. Teesdale.... *525
New Orleans:
Changes in Market will permit levee set back n301
New York City:
Rockefeller Center — Italian building rising n*61
Senate requests information on post office annex contract n298
Palo Alto, Calif.:
Stanford University dormitories use light weight welded steel frames. J. B. Wells *380
Troy, N. Y.:
Rensselaer Polytechnic Inst.—special welded connections. L. W. Clark.. *675
Vancouver, B. C.:
Post office bids invited n759
Washington, D. C.:
Treasury Department asks bids for Interior building n928
Buildings—floors. See Floors.

C

Cables:
Socketing guard-cable test specimens. D. V. Pickle *392
Caddoa Conservancy District created..... n572

CAISSONS

Pneumatic caissons practice in Soviet Russia. M. A. Kienia *418, e428
San Francisco-Golden Gate:
Caisson for South pier sinks..... n*399
San Francisco-Oakland Bay Bridge:
Sinking deep caissons. Purcell, Andrew & Woodruff. pt. 1 *239; pt. 2 *278, e260
Canadian Construction Association:
Meeting discusses low-cost housing.... n266

CANALS

All-American Canal:
Seven mile branch constructed as horse drawn relief project..... *422
Work goes forward n*433
California irrigation canal lining work n*687
Cape Cod canal:
Improvements discussed at A.S.C.E. meeting 131
Model built to aid hydraulic study.. 417
Mooring place gets funds n608
Colombia irrigation canals lined with brick. E. M. Crawford ..... l 567
Rio Grande canalization project to be studied n264
Causeways. See Bridges.

CEMENT

American Concrete Institute discusses progress 323
Cement coefficients—correction. S. L. Meyers ..... l 567
Research on cement gelatin n178
Synthetic puzzolana for greater concrete durability 437
Thermal coefficients of expansion for portland cements. S. L. Myers..... 424

CHANNELS

Calumet Sag Channel excavation (unit prices) 146
Dredging started in channel from Gulf of Mexico to Brownsville n27
Missouri River channel work 156
Chicago:
Driving Chicago's extensive sewer tunnels, pt. 1 *831; pt. 2 *881; pt. 3 *911, e888
Cities:
City's opportunity, the bond market.. e462
Trenton, N. J., votes to adopt city manager government n466

CITY PLANNING

A.S.C.E. discusses city planning..... 132
Cincinnati city planning conference.... 839
New York Mayor urges permanent planning department n265
Civil Works Administration:
Back to CWA e855
Work programs of CWA and ERA. Jacob Baker *224
Civilian Conservation Corps:
Main work units of the recovery program 311
To work under Bureau of Reclamation n789
Cliff, artificial, of reinforced concrete for animals in zoo near Paris..... *454
Coast erosion and protection:
Permeable concrete groins for beach protection at Cudahy, Wis. E. A. Howard *594, e602
Resettlement Administration to administer coast erosion control..... n688

CODES

Bill to maintain code standards brought to Senate n892
Building codes:
American Standards Assn. to correlate. n688
Cement:
Revised code omits cost protection. n758
Code wages hearing to be held n140
Construction:
Amendments approved by NRA n757
Amendments to be considered..... n141
Another chapter added e462
Apprentice training information.... n432
Area agreements make little progress. n688
Area agreements slow n333
Bid depositories established for New York building contractors n398
Bid depositories rules issued by Code Authority n25
Bid depository rules approved for General Contractors 51
Cement gun contractors code name changed n726
Code extension asked n570
Committees authorized for architects and engineers n606
Compliance efforts improved n62
Construction on its own e854
Contractors expect little change in costs since codes' ending n858
Cotton Textile Industry and Code Authority reach agreement on construction work n604
Court upholds bid depositing under code n605
Decentralizing self-government e718
Draftsmen ruled exempt from hours clause n648
Eliminate building parasites e568
Employer-employee relations. S. W. Jones 218
Employment figures asked from contractors n264
First year of the code. S. F. Voorhees 212
General Contractors Code:
AGC asks stronger enforcement.. n758
Bid depositories established for New York Building contractors.. n398
Bid depository rules approved..... 51
Change in code approved n142
Contracting under the code. A. E. Horst 214
Contractors seek to continue code practice n861
Contractors warned to secure code certificates n538

*Illustrated; a, abstracts; e, editorials; l, letter; n, news.

Contractors to be protected from withdrawal of sub-bids n572
Efforts bearing fruit e136
Highway Contractors' subchapter approved n466
Rules for bid depositories issued. n25
Heavy construction and railroad work code approved n686
Leaders in industry give opinions on code abandonment 815
League acts to preserve industry integration n857
Local construction coordination to improve code administration 711
NRA favored to continue n398
Post code construction costs.....e854
Promotion of code essential e22
Questionnaire will help recovery campaign *396
Selling below-cost provision urged retained n142
Speculative builders oppose code....n535
Subcontractor's code problems. G. P. Marshall 215
Supreme Court voids codes 815
Violators of codes cannot be punished by code authorities n301
Crushed Stone:
Hearing to consider code n366
Engineers' code:
Engineers and the code system. Carlton Proctor 217
Have codes aided recovery? A. J. Hettinger, Jr. 209
Meeting recommends continuance of NRA for two years n467
NRS holds hearing on employment provisions of all codes n234
President acts to offset let-down in code operations n500
Supreme Court decision holds codes unconstitutional e786, n788
Supreme Court destroys code system..e819

COFFERDAMS

Allegheny River navigation dams constructed by progressive cofferdamming.*473
Cape Cod bridges—sinking open cofferdams through glacial drift..... *1
Seepage and pumping in Mississippi River cofferdams. H. G. McCormick.....*339
Colorado River (Texas) Authority:
Legality decision awaited n792. allotments n928
Plan endorsed in California and Utah..n430
Columbia River:
Regional planning commission to continue without a Columbia River Authority 454

COLUMNS

Column base-plate design by concrete-beam analogy. J. E. Lothers..... *5
Encased concrete columns. J. C. Schulze. l 21
Place of steel in concrete columns. Ben Moreell 410
Compressed air and air tools:
Air compressor works at lower temperature 610

CONCRETE

Asbestos-cement concrete tested in France *772
Austrian fatigue tests of reinforced concrete beams 697
Belgian exposition building has 282 ft. concrete arches *877
Bellamy River bridge, New Hampshire, uses bituminized concrete casing for piles in sea water *121
Colorado River Aqueduct—concrete experimental work under desert conditions *118
Composite steel and concrete bridge slabs for Secaucus, N. J., and Little Ferry, N. J., bridges. Shortridge Hardesty *484
Designing concrete members for bending and compression. A. W. Fischer....l 919
Designing concrete members for bending and compression. F. E. Turneaure..*566
Electric heating of concrete in Russia and Sweden *286
Fineness modulus. P. Dekker.....n853
Mechanized concrete production e360
Mississippi River locks in Rock Island district—concreting plant. Alexander & Comess *543, e568
Mixer and batcher for Cape Cod Canal bridges *305
Norris Dam making a record in placing concrete *698
Place of steel in concrete columns. Ben Moreell 410
Prestressed concrete pipe tested at Purdue. B. B. Crepps *275
Progress and possibilities in concrete discussed by American Concrete Institute 323
Rock grouting at Boulder Dam.....*795
Strain meter improvements in five years. R. W. Carlson *696
Vibration of concrete e496
Voids and yield losses in concrete. J. E. Boyd (chart) 156
Waukesha prestressed concrete standpipe built in vertical panels. A. P. Kuranz.*488
Wood reinforced concrete used in Russian bridge construction. M. A. Kienia *418, e428
Yardage records and relative efficiency of concreting e786

CONCRETE AGGREGATES

Research opportunity e360
Study of aggregates for bituminous and concrete road surfaces; interview by F. H. Jackson *349
Surface area and the fineness modulus. F. S. Besson *248
Conduits:
Arch tile conduit for underground steam lines *610
Connecticut Society of Civil Engineers:
New Haven meeting n331

CONSTRUCTION

Accidents too great a burden e22
Beltsville as a warning e646
Bills of interest to construction appear in Congress n62
Business side of construction..30, 269, 368, 504, 654, 826
Civil engineering in the Missouri Valley.*155
Construction accidents and compensation. E. N. Goldstine 10
Construction League gives counsel.....e568
Construction League reports on handling of relief work n570
Current unit prices....146, 268, 336, 404, 438, 540, 692, 897, 931
Distribution of costs on contract work (tables) 409
Economic and business changes (chart) 190
Editorial review of progress and outlook, 1934-1935 183
Federal construction bill an essential improvement e296
Financial report issued by RFC.....n138
Force account system e107
New construction bill—not for recovery.e136
1934 construction facts and outlook (charts and tables) 194
New York City gives account of handling 100,000 men on relief construction *778
President calls on construction.....e59
Private construction gaining e818
Structural analysis discussed at A.S.C.E. meeting 133
Structural design e136
Supreme Court rules construction is not interstate n820
Toying with recovery e177
Construction. See also Public Works.

CONSTRUCTION EQUIPMENT

Air powered scoop *864
Backfill scraper 896
Bolt clipper, hand operated *29
Bucket, light weight *145
Compressor, protable air *403
Compressor, water-cooled *145
Concrete breaking machine of trailer-type *338
Concrete vibrator 896
Concrete vibrator driven by gasoline engine *29, *145
Corometer for measuring pavement cores.*896
Crane boom spliced to handle 75-ft. sheet-piling. W. G. Cheever *564
Dredging bucket, ten-ton clam shell.... 930
Drill sinking *68
Excavator with vacuum control for clutches 68
Flat car at Boulder Dam cushioned with truck tires to protect concrete buckets.*392
Grader, leaning wheel *68
Grader, road hog *542
Highway screed for eliminating crown on curves *437
Hydraulic testing machine for plastic mortar tests *542
Machine notches timber to make bond with concrete *394
Paver, black top *304

Sodium vapor lighting adopted for San Francisco Bay Bridge n*925

LOCKS

Mississippi River canalization—concreting plant and methods on seven locks in Rock Island district. Alexander & Comess *543
Mississippi River canalization—seepage and pumping in cofferdams built for lock construction. H. G. McCormick .. *339
Mississippi River:
Status of locks and dams for upper river improvement 348
Loweth, C. F., dies n757

M

Manholes:
Cover perforation effective in manhole ventilation 247

MAPS AND MAPPING

A.S.C.E. discussed surveying and mapping 132
Area measuring device *542
Consolidated mapping e106
Federal mapping agencies receive PWA allotments 120
Future mapping of the United States. W. N. Brown ..... l 395
Planimeter maps made with the aid or aerial photography of the Tennessee River Basin. T. P. Pendleton 243
Report released by National Resources Board n108
Topographic maps cover only 26 per cent of the United States n*139

MARINE BORERS

Activity of marine borers. A. A. Brown ..... l 358
American Wood Preservers Assn. reviews problem n180
Creosoted piles resist borer attack in tidewater. A.W.P.A. meeting 383
Marine borers e176
McGraw, James H., fifty years of publishing e752
Merrimack Valley Authority:
Planned by state legislation n332
Meyer, Henry C., dies n501
Meyer, Henry C.—a pioneer e496
Minerals:
National Resources Board begins study. C. W. Eliot, 2nd 220
Report on minerals released by National Resources Board n108
Minnesota Surveyors' & Engineers' Society:
Report of St. Paul convention n332

MISSISSIPPI RIVER

Broad development plan proposed by Mississippi Valley Committee 19, e22
Canalization funds appropriated n928
Concreting plant and methods on seven locks in Rock Island district. Alexander & Comess *543, e568
Flood control plan revised *492, e497
Flood control plan revised and subject to hearings n537
Levee work progresses due to low water 840
Revetments of articulated concrete blocks. *773
Seepage and pumping in cofferdams built for lock construction. H. G. McCormick *339
Spur dikes and mattresses (unit prices) 471
Status of locks and dams for upper Mississippi River improvement 348

MODELS

Boulder Dam spillways model tests. D. C. McConaughty *480
Cape Cod Canal model built to aid hydraulic study 417
French engineers report on studies of distorted hydraulic models *453
Tests of earthquake-proof timber floors. Green, Horner & Combs *871
Monuments:
Washington monument cleaned n81
Washington monument located in National Geodetic Survey 486

MOTOR VEHICLES

Parking area at low level protects ocean view on coast route *345
Trailer of large capacity *472
Truck-trailer trains for roadless country in Australia *812, e818
Muskingum Valley Conservancy District:
Enlarged program proposed n499
Muskingum Valley. See also Dams.
Motors:
Helical gear reduction units allows choice of motors 610

N

National Construction Planning & Adjustment Board:
Meeting recommends continuance of NRA for two years n467

NATIONAL INDUSTRIAL RECOVERY ACT

Code Authority favors continuing a modified NRA n398
Cutting bid prices on federal work ineffective n687
Have codes aided recovery? A. J. Hettinger, Jr. 209
Limits of power e684
State recovery acts to aid national act. n500
Supreme Court destroys code system e819
National Paving Brick Assn.:
Indianapolis meeting discusses de-aired brick and joint fillers and bedding material for brick pavement 291
Meeting presents new technical data n263
National Railway Appliance Assn.:
Resumes its show of railway equipment 427
National Recovery Board:
Code wage hearing to be held n140
National Resources Board:
Administering the national estate e106
Bill continues board as National Planning Board n890
Permanent board favored by the president n179
Reports on mapping, land use and minerals released n108
Resources study begun. C. W. Eliot, 2nd. 220
National Society of Professional Engineers:
Growth in membership e328
Headquarters at Washington n652
Iowa engineers debate affiliating with society n262
Ohio Society joins group n298
Proposes Department of Public Works. n430
South Carolina Engineers join society. n109
New England Road Builders Assn.:
Report of Boston meeting n605
New York City:
Handling 100,000 men on relief construction *778
Submits $1,000,000,000 works program to PWA n262
New York State Sewage Works Assn.:
Progress in sewage treatment discussed at meeting n110
New York State Society of Professional Engineers:
Annual meeting n758., e752

O

Ohio Engineering Society:
Votes to join National Society of Professional Engineers n298
Oxyacetylene. See Welding.

P

PARKS

Funds increased for National Park service n364
Indiana employs CCC engineers to improve parks. Denzil Doggett *703
National Park and Geological Survey funds increased n604
New York City plans for west side parkway n925
St. Louis Memorial project aided by new state law n686
Parsons, Harry de B., dies n181

PAVEMENTS

Brick paving needs more allowance for cuts and bats. Charles Wuest, Jr. *357
Cast-iron block pavement at Wilmington, Del. *317
De-aired brick tests. R. B. Keplinger. 308
Detroit street-widening includes bridge and paving work *559
Dowels and dummy joints for concrete pavements. H. F. Faulkner ..... l 495
Dowels and joint fillers for concrete pavements. R. E. Toms *318
Formula for thickness of flexible pavements. B. E. Gray ..... l 494
Load transfer at transverse joint in concrete pavements. Clifford Older *746
New paving brick technique discussed at N.P.B.A. 291
Paving brick progress e260
Rational road design. F. T. Sheets 83
Roadside design. M. W. Torkelson *95
Rubber pavement in tunnel a source of trouble 671
Thickness of flexible pavement. E. M. Fleming ..... l 358
What price joints e328

Penstock:

High head penstock of Chandoline plant in Switzerland *288

Piers. See Wharves and docks, Ports and harbors.

PILES AND PILING

Bellamy River Bridge, New Hampshire, uses bituminized concrete casing for piles in sea water *121
Concrete piles in sea water. H. M. Hadley ..... l 716
Creosoted piles resist borer attack in tidewater. A.W.P.A. meeting 383
Steel sheetpile cutoff wall for Fort Peck Dam *35
Tubular and H-piles for California all-welded steel pier. R. C. Helen *38
Venezuelan lake shore protected by precast concrete sheetpile seawall. J. J. Collins *405

PIPES AND PIPE LINES

Ashland-Lincoln, Neb., leakage tests on pipe line 449
Cast iron pipe report presented by American Water Works Association 715
Cleaning steel main under water in waterworks system. A. T. Clark *356
Comparison of steel and concrete pipe lines (unit prices) 692
Culvert durability investigated by West Virginia University and State Road Commission. W. S. Downs *384
Denver's wood-stave pipe in water system installed fifty years ago 130
German engineers study frost rupture of pipes *453

Jacking 5-ft. concrete pipe under railway fills at Rutland, Vt. E. L. Tracy.*346
Prestressed concrete pipe tested at Purdue. R. B. Crepps *273
Reactions at pipe-bends in Milwaukee water-distribution system. Irving Goldflen *566
Russia develops wood stave pipe. A. Popkow *52
San Francisco Bay pipe line crossing (unit prices) 541
Switzerland uses welded steel pipe arched across unstable ground.....*342
Texas to have new gas line n861
Vancouver's submerged pipe lines. W. H. Powell *124
Waco, Texas, awarded damages for pipeline work n141
Water engineer aided by improved pipes and metering. T. H. Wiggin *629
Welded trusses of second-hand pipe...*58

PLYWOOD

Forest Products Laboratory building uses plywood for walls and roof. L. V. Teesdale *525
Heavy plywood sheets as gusset-plate material. Benkert, Hanrahan & Smith *40
More rational use e58

PORTS AND HARBORS

Chief of engineers approves river and harbor work of $155,000,000.....n62
New York Port Authority sells bonds..n464
Rivers and harbors bill passed by House.n537
Senate Committee reports on rivers and harbors bill n926

POWER AND POWER PLANTS

Federal Power Commission reports on power survey n498
Federal Power Commission to report survey of power resources n63
Missouri federal judge approves PWA loan for municipal power plant.....n363
Power planning e58
Progress on power projects in 1934 ..*205
Property inventory of St. Paul and Minneapolis 120
Public utilities:
Albany, N. Y., power authority created by new law n823
Quebec proposes public ownership of power 777

PUBLIC WORKS

Allocating funds from relief bill.....n534
Back to CWA e855
Baltimore to vote funds to finance public works n537
Canadian government to spend $30,000,000 on public works n608
Chamber of Commerce appeals for work by contract n178
Construction's stake in the new deal..*311
Contractors assured participation in new work relief program.....n233
Cuban public works program making progress 678
Department of public works proposed by National Society of Professional Engineers n430
Editorial review of progress and outlook, 1934-1935 183
Highway construction relief works allotments e786
Housing. See Housing.
National Resources Board reviews public works as a stabilizing factor..... 220
New York builders protest use of day labor in public works plan n109
New York City gives account of handling 100,000 men on relief construction *778
1934 construction facts and outlook (charts and tables) 194
Organization of new work relief program.n648
Partnership of states, cities and the national government e719
President's message n60
Purpose of the works bill.....e428
Readers' poll favors public-works program 255, e261
Recovery measured by men at work. Isador Lubin 192
Recovery and public works. I. D. Foos (charts) 222
Relief Act of 1935 .....e569
Relief bill projects not to be large projects n648
Relief fund distribution n573
Relief plan will give consideration to smaller projects n605
Relief program.....n686, e753, n820, e889
Relief works program turned to produce direct employment n856
Relief works—twenty state administrators named n759
Rhode Island department changes personnel n435
Rules for filing relief works projects..n720
Senate Committee continues hearing on works bill n262
Wages lower than PWA established for relief program n756
Washington speculates on handling of new works fund n109
Why can't Uncle Sam prime the pump? Farley Gannett 527
Wisconsin plan for relief work n790
Wisconsin works plan defeated in legislature n891
Wisconsin's public works plan to be assisted by government n756
Work programs of CWA and ERA. Jacob Baker *224
Work Relief Act administration not decided n499
Work relief bill.....n138, n231, n298 e329, n330, n382, n398, e462, n499, e532

PUBLIC WORKS ADMINISTRATION

Added inducements e787
Allotments up to date for works program n928
Application file reopened.....n649, e646
Arrangement made with RFC for private sale of works bonds n300
Bonds to secure loans e646
Decentralization advocated by Sec. Ickes. n25
Expenditure report asked by senate...n362
Extended and enlarged under new order..n860
Hackett becomes assistant administrator.n720
Ickes expects non-federal program from relief-works money n890
Inventory of available projects.....n332
Inventory of new work projects being taken n141
Inventory of public works n363
Loans and grants:
Governors offered aid in planning works legislation n24
Liberalized grants approved.....n788
Mapping activities receive allotments.. 120
New York City submits $1,000,000 works program n262
New York law aids state in use of federal funds n689
New York project engineer named....n498
New York submits $1,000,000,000 works program n262
State engineers become acting state directors n791
State offices to study projects under new plan n721
Texas Cities list projects for new program n301
Willacy County, Tex., water control project—grand jury alleges conspiracy to defraud n464
Works bill amended to extend the PWA for two years n430
Pump house for underpass in Mississippi. R. B. McKnight *355
Pumps and pumping:
Conical control valve for pump.....*472
Pupin, Michael—dies n400

R

Radio wooden tower self-supporting. F. P. Cartwright *701
Railway administration:
Pennsylvania Railroad—Clement named president n650
Railway cars:
Flat cars at Boulder Dam cushioned with truck tires to protect concrete buckets *392

RAILWAY CONSTRUCTION

Canadian Pacific Railway—an engineer's recollections. J. F. Stevens *412; pt. 2 *450; pt. 3 *521; pt. 4 *590; pt. 5 *672; pt. 6 *749; pt. 7 *850; pt. 8 *917
China is extending its railway system..*803
Company in Mexico to build four coast lines n63
Pennsylvania Railroad's new tunnel at Baltimore driven in difficult soft ground *509
Roadway expenditures by railways increase in 1934 774
Railway crossings. See Grade crossings.
Railway electrification:
Pennsylvania Railroad completes electrification n535
Pennsylvania Railroad electrification....e260
Railway research e428

RAILWAY TERMINALS

Arch trainsheds e106
Los Angeles Union Station started....n537
Newark's old station demolished.....n*723
Pennsylvania Railroad replaces old Newark station with new n*465

RAILWAY TRACK AND TRACKWORK

Australian main-line railroads to be converted to standard gage..... 414
Baltimore & Ohio R.R. track relocation (unit prices) 931
Burlington Lines makes track improvements to speed the "Zephyr" train.. *17
N. Y. C. R.R. track depression, New York City 470
Rails:
Two-bolt rail joints in England.....*422
Stresses in railroad track investigate at University of Illinois *798
Railway trains:
German trailer for railway cars.....*452
Modern New York, New Haven & Hartford trains discussed at Connecticut meeting n331
Railways:
A.R.E.A. resumes three-day meetings.... 425
N.R.A.A. resumes its show of railway equipment 427

RAINFALL AND RUNOFF

Drought continues on western Great Plains n*364
Drought and dust in Colorado. Lory, Burnham l854
Drought, weather and streamflow in 1934. J. C. Hoyt *1
Dust storms and drought control in Washington n5
Dust storms: their cause and suggested remedies. R. I. Throckmorton.....*
Dust and water e4
Frequency, extent, and severity of droughts since 1881. L. L. Harrold (charts) 4
Level of Great Salt Lake reaches all-time low *5
Mississippi Valley suffers from spring thaws and rains n*4
National Resources Board reports on water resources *1
Rochester, N. Y., purchases water as shortage approaches. Meloy Smith..*6
Reconstruction Finance Corporation:
Financial report issued n13

REGIONAL PLANNING

Alexander Hamilton's SUM as a factor in water supply of northeastern New Jersey. M. N. Baker *4
Columbia River planning to continue without establishment of Authority.. 454
New York state law will restrict improvement districts n30
Pacific Northwest Regional Planning Commission progress 664
Relief Works. See Public Works.

RESEARCH

Columbia University buys large hydraulic testing machine 564
Equipment and materials in construction changing e718
Field testing devices for El Capital hydraulic fill dam. E. A. Rowe.....*150
Highway research. R. W. Crum.....*70
Lehigh University research work on materials. Inge Lyse *588
Purdue Research Foundation plans research on housing n824
Technology of emulsions for surfacing floors. L. Birschbraun *276
University of Illinois investigations. M. L. Enger *798
University of Wisconsin's notes on current research. F. E. Turneaure.....*455

RESERVOIRS

Ashokan Reservoir to have tablet dedicated to J. Waldo Smith.....n500
Fresh water reservoir built for New York aquarium. R. Leedom.....*158
Kansas reduces taxes to landowners who build reservoirs 254
Quabbin reservoir's embankment dike (unit prices) 146
Slide rule for routing floods through storage reservoirs or lakes. C. J. Posey *580
Retaining walls:
Russian timber crib for canal retaining wall *598; A. Floris l853
Revetments:
Mississippi River revetments of articulated concrete blocks *773
Newest Mississippi River revetment practice consists of articulated concrete blocks *773

RIVERS

Army engineers allotted funds for river work n754
New England rivers to be studied by Commission n299
Ohio River as a water supply source. H. W. Streeter *612
Ohio River locks and dams get allotment n893
Rio Grande project practically completed n*467
Rivers and harbors bill passed by House..n537
Senate Committee reports on rivers and harbors bill n926
Roofs and roofing:
Conoid roof vault for Paris car barn..*771
Forest Products Laboratory building has plywood roof supported by arches of glued laminations. L. V. Teesdale..*525
Rural Electrification Administration:
Swanson named chief engineer.....n790

S

SEAWALLS

Beach protection on California coast roads *253
Machine notches timber to make bond with concrete *394
Venezuelan Lake shore protected by precast concrete sheetpile seawall. J. J. Collins *405

SEWAGE TREATMENT

Activated-sludge action revealed by studies of U. S. Public Health Service 383
Allentown, Pa., sewage plant data..... 129
Atlanta making experiment on treatment.n792
Atlanta sewage tests. Alexander Potter.1920
Baltimore experiments with sludge-elutriation tests. Keefer & Kratz.*289, e296
Buffalo treatment plant ordered by health department n467
Calculating efficiency of filtration. H. E. Hudson, Jr. 528

• Illustrated; a, abstracts; e, editorials; l, letter; n, news

Chicago installs large Imhoff tank group.n649
Detroit plans sewerage system.....n650
Illinois sewage treatment plants discussed at Illinois engineers' meeting.. 244
Illinois towns required to plan sewage disposal works n333
Milwaukee sewage extension brings suit.n928
Minneapolis loan for sewage plant reduced by bond sales n574
Montreal names committee to study treatment of sewage n793
New York meeting discusses progress in sewage treatment n110
New York's sewage problem discussed at A.S.C.E. meeting 133
Progress on sewage treatment projects in 1934 204
Pump for handling sewage sludge.....*437
St. Albans, Vt., constructs sewage treatment plant and long outfall sewer. H. W. Taylor *739
Sewage-sludge fuel value related to volatile matter. Fair & Moore *681
Sludge dewatering unit for small communities 726
Worcester, Mass., sewage plant performance 807

SEWERAGE

Bag-type sewage sampler used at Munich, Germany *153
Chicago Sanitary District:
Progress e396
Reports construction progress to Supreme Court n61
Would like to sell canal to government n27
Denver to make survey of river pollution n64
German drainage district—Karl Imhoff resigns n143
German system has retarding reservoir to take peak runoff 772
New England Commission to investigate Rhode Island sewerage project n299
Sanitary engineering discussed at A.S.C.E. meeting 133
Seattle requests funds for sewerage program n302
Twin City project—Carey made engineer.n791
Twin City sanitary board—accident in tunnel n265
West Hartford district joins city in sewage disposal plan n299

SEWERS

Buffalo sewer project defaulted in October now let to another contractor.n264
Chicago sewer to be repaired.....n334
Chicago's extensive sewer tunnels, pt. 1 *831; pt. 2 *881; pt. 3 *911
Columbus, Ohio, sewers damaged by cooling water n688
Cumberland, Md., building long intercepting sewer through bad ground....*775
Detroit sewer verdict not to be set aside.n572
Ground for sewer excavation thawed by oil fire. G. F. Brousseau 394
Jacking 5-ft. concrete pipe under railway fills at Rutland, Vt. E. L. Tracy.*346
Los Angeles tests sewer-lining materials for corrosion resistance. H. G. Smith 444
Lynn sewer case—court denies request to inspect engineers' papers n302
Manholes. See Manholes.
Providence plans storm sewer project. n64
Reconstruction problems in Independent System building in New York City. Bleich & Brahdy *552
St. Albans, Vt., constructs sewage treatment plant and long outfall sewer. H. W. Taylor *739

SILICOSIS

Menace of silicosis e397
North Carolina legislation e496
North Carolina and New York include silicosis in compensation acts.....n500
Suits in Missouri and West Virginia affected by legal moves.....n365
Underground rock-dust control discussed at mining meeting 321

Silting:
Boulder Dam reservoir silting to be studied by new program n399

Siphons:
Colorado River siphon design. D. B. Gumensky *899

Slide rule solves quadratic and cubic equations. D. B. Hall *54

Snow:
Surveys of snow as an aid to flood forecast and control. J. E. Church....*879

Society for Promotion of Engineering Education:
Atlanta meeting n792

Soil erosion. See Erosion.

SOIL MECHANICS

Boulder Dam reservoir site being surveyed by government for land settlement.. 741
Effect of soil types on optimum moisture. B. G. Zimmerman *875
Field testing devices for El Capitan hydraulic fill dam. E. A. Rowe *150
Laboratory determination of optimum soil moisture. B. G. Zimmerman.....*838
New Hampshire carries on soil surveys for highways. J. O. Morton.....*706
Prospecting for road metals by geophysics. S. W. Wilcox.....*271, e297
Soil knowledge in practice e719

Stairs:
Steel stair tread of grating and checkered plate *403

Standardization:
A.S.T.M. current research activities.... 449

STEEL AND STEELWORK

Airport hangar frame at Dixon, Ill., built of discarded T-rails. F. N. Wildish *490
Copper-nickel-molybdenum steel developed n930
Cutoff wall for Fort Peck Dam of steel sheetpile *35
Los Angeles planetarium's steel ribbed domes. R. McBennfield *676
Place of steel in concrete columns. Ben Moreell 410
San Francisco-Oakland Bay Bridge—Steel towers erected by hammerhead derricks. H. C. Hunter *867
Shear spiral for composite steel and concrete slabs *54
Stanford University, Calif., dormitories use light weight welded steel frames. J. B. Wells *380
Understressing and overstressing on iron and steel. University of Wisconsin tests. J. B. Kommers *550

Stresses:
Designing concrete members for bending and compression. A. W. Fischer....1 919
Understressing and overstressing on iron and steel, University of Wisconsin tests. J. B. Kommers *550

Stuart, Francis Lee, dies n*111

Subways:
New York City's Independent System building involved sewer reconstruction. Bleich & Brahdy *552
Newark City subway opened.....n*791

SURVEYS AND SURVEYING

Aerial surveys of road route from the Rio Grande to Panama. D. T. Brown.*768
Canadians to supervise surveys in Newfoundland 886
Coordinate method of computing irregular cross-sections. J. C. Park.....*565
Funds increased for public land surveying and topographical surveys n364
Geodetic control net aided by PWA financed work. W. Bowie 316
Geological Survey and National Park funds increased n604
Instrument that measures horizontal movement of a point *726
New Jersey passes new land boundary system n573
Prospecting for road metals by geophysics. S. W. Wilcox.....*271, e297
Reducing inclined survey distances to horizontal. J. L. Brubaker..... *55
Surveyors' status changes by law in California 249
Three point problem solved by the Cucunutti method. J. M. Brown.... *56
Tripod shoes to prevent slipping.....*304

T

TANKS AND STANDPIPES

Alabama water tank of scraps collapses when filled n688
Collapse of Alabama water tank.....e718
Detroit tanks eliminate water pressure pulsations. G. H. Fenkell.....*624
Indianapolis water service improved and pumping costs reduced by elevated tank. W. C. Mabee.....*626
Kansas City, Kan., tanks and booster districts improve water works. J. D. Donovan *628
Liquid asphalt tank cars unloaded with aid of electric heating units..... 477
Milwaukee tanks and booster stations improve pressure in water works. J. P. Schwada *625
Tanks and booster stations improve pressure and relieve water shortage. D. H. Maxwell *623
Waukesha prestressed concrete standpipe built in vertical panels. A. P. Kuranz.*488

TAXATION

Gas tax diversions not for the public good e429
Gasoline tax diversion survey. R. F. Britton 43
Kansas reduces taxes to landowners who build reservoir 254
Law and road taxes e58
Pennsylvania gasoline tax increase fails.n571

TENNESSEE VALLEY AUTHORITY

Answer to charge of comptroller-General e818
Appropriation bill passes House.....n927
As a lawyer sees engineers and the TVA 797
Competitive sale of TVA power held illegal by Federal Court n331
Lines may be extended in West Tennessee.n789
Planimeter maps made with the aid of aerial photography of the Tennessee River Basin. T. P. Pendleton..... 243

Towers:
San Francisco-Oakland Bay bridge features batter leg towers. Purcell, Andrew & Woodruff *865
Wooden radio tower self-supporting. F. P. Cartwright *701

TRANSPORTATION

Eastman proposed ICC control over road and water transport n189
London plans extension of system n924
Progress on transportation projects in 1934 208
Transport regulation difficulties e58

Trestles:
Bonnet Carre spillway crossed by four long trestles. E. E. R. Tratman *12
Bonnet Carre spillway—first trestle completed n265

Trusses:
Welded trusses of second-hand pipe..... *56

TUNNELS

Casper-Alcova diversion and outlet tunnel *250, e261
Chicago water tunnel completed.....n333
Chicago's extensive sewer tunnels, pt. 1 *831; pt. 2 *881; pt. 3 *911

Fort Peck Dam:
Diversion tunnels (unit prices).....808
Fast tunneling on pilot headings.....n330

Viaducts:
Analysis of rigid viaduct bents. L. C. Maugh *379
Rigid viaduct bents. Dana Young l*717: correction 853

W

WALLS

Concrete wall protects ocean boulevard slope *392
Perforated steel barrels filled with gravel for vertical drains behind walls.... *258
Russian tests of high timber cribs for canal retaining walls *598
San Francisco airport walls of light sheet-metal. G. D. Burr *491
Wastes, industrial:
National Resources Board reports on water resources *169
National Resources Board to study stream pollution n179
Water conservation:
Sandusky conservancy program awaits new works bill plans..... n434

WATER MAINS

Break in New York main causes damage n60
Cleaning steel main under water in waterworks system. A. T. Clark.... *356
Denver's wood stave pipe in water system installed fifty years ago..... 130
Improved pipes and metering aid water engineer's task. T. H. Wiggin..... *629
Water meter:
Improved pipes and metering aid water engineer's task. T. H. Wiggin..... *629
Meters and meter records. A. S. Hibbs.. *641

WATER POLLUTION

Buffalo served order in regard to river pollution n334
Denver to make survey of river pollution n64
Goteborg, Sweden, erects needle dam to prevent harbor pollution..... *596
National Resources Board to study stream pollution n179
Ohio River as a water supply source. H. W. Streeter *612
Waterproofing with moleskin cloth..... 596

WATER RESOURCES

Board begins study of resources. C. W. Eliot, 2nd 220
Central Valley project committee appointed n651
Inventory of water resources..... e137
National inventory of water resources offered by committee n140
National Resources Board reports on water resources *169, e176

WATER RIGHTS

Arizona to draw new contract for Colorado River Water n178
California supreme court establishes new water law n231
Casper-Alcova diversion and outlet tunnel 250, e261
Colorado Basin states propose conference with Arizona n27
Colorado supreme court upholds water rights of direct users n604
Lake Tahoe level controversy settled..... 408
Nebraska-Wyoming dispute to be heard by Supreme Court n501
Utah Supreme Court decisions confuse underground water law. C. J. Ullrich 487, e496
Water service e611

WATER SUPPLY

Alexander Hamilton's SUM as a factor in water supply for northeastern New Jersey. M. N. Baker..... *45, e58
Arizona answers federal suit on Parker Dam case n265
Baltimore plans additional water tunnel n332
Community safety e533
Deer Creek water project, Shawnee, Okla. 470
Denver concludes contract for water diversion n138
Denver's wood stave pipe in water system installed fifty years ago 130
Electric water gage *864
Hetch Hetchy:
Plans for raising dam approved.... n434
Reservoir extension (unit prices)... 540
Illinois engineers' meeting discussed water supply 244
Little Rock, Ark., planning for Alum Ford reservoir n793
Lincoln, Neb., constructing a plant for the removal of manganese and iron from the New Platte Valley water supply *246
Mississippi Valley Committee proposes broad development plan 19
Ohio River as a water supply source. H. W. Streeter *612
Ohio Valley well supplies slowly depleted. O. E. Meinzer *621
Our decaying plant e647
Philadelphia to improve water supply..n689
Progress on water supply projects in 1934 ..... *201
Reading's Maiden Creek water supply system (unit prices) 66
Rochester, N. Y., purchases water as shortage approaches. Meloy Smith.. *618
Texas planning water control and development n27
Transmountain diversion plan to convey water from Colorado River basin to South Platte River basin n300
Vancouver's submerged pipe lines and their maintenance. W. H. Powell... *124
Water supplies require expansion as consumption rises. N. S. Hill, Jr. (charts) 616
Water Supply District for South Texas proposed n607
Western irrigation storage water low...n573

WATER TREATMENT

Chicago's ammonia-chlorine plant installed on lake crib. Gorman, Gerstein & Peterman *638
Flexibility in design aids purification plant operation. Paul Hansen *633
Illinois water-softening plants discussed at Illinois engineers meeting..... 244
Lincoln, Neb., constructing a plant for the removal of manganese and iron from the new Platte Valley water supply *246
Odor control technique. M. W. Cowles.. *636
Water purification presented at American Water Works Association meeting... 714

WATERWAYS

Mississippi Valley Committee proposes broad development plan 19
Progress on waterways in 1934..... 207
Self-liquidating waterways e23

WATERWORKS

A.W.A. Indiana Section discuss source, distribution and purification problems.n435
Administration economy of water works. T. A. Leisen 642
American Water Works Association convention 713
Chicago water tunnel completed.....n333
Detroit tanks eliminate water pressure pulsations. G. H. Fenkell *624
Gillespie, Ill., files bankruptcy suit due to indebtedness on waterworks system.n264
Improved pipes and metering aid water engineer's task. T. H. Wiggin..... *629
Indianapolis water service improved and pumping cost reduced by elevated tank. W. C. Mabee *626
Kansas City, Kan., tanks and booster districts improve waterworks. J. D. Donovan *628
Milwaukee tanks and booster stations improve pressure in waterworks. J. P. Schwada *625
Montreal waterworks and sewers approved n572
Operation of waterworks a personnel problem. H. E. Jordan 645
Reactions at pipe-bends in Milwaukee water distribution system. Irving Goldfien *566
Saratoga Springs waterworks (unit prices) 897
Springfield, Ill., may lose PWA grant unless it completes waterworks project n264
Tanks and booster stations improve pressure and relieve water shortage. D. H. Maxwell *623
Toledo diverts water funds and endangers water purification. G. N. Schoonmaker 643
Water funds supplement taxes widely. N. T. Veatch, Jr. 644
Water supplies require expansion as consumption rises. N. S. Hill, Jr. (charts) 616
Willacy County, Tex., water control project—grand jury alleges conspiracy to defraud n464
Wegmann, Edward, dies n*63

WELDING

All-welded steel pier of tubular and H-piles off California coast. R. C. Helen *38
Decade of development in the oxy-acetylene processes 249
Indianapolis department store uses welding in building *587
Los Angeles Planetarium's steel ribbed domes are welded. R. McBeanfield.. *676
Metallurgical cutting with oxy-acetylene 421
Portable welding outfits *257
Special welded connections in Rensselaer Polytechnic Inst. laboratory. L. W. Clark *675
Stanford University, Calif., dormitories uses light-weight welded steel frames. J. B. Wells *380
Switzerland uses welded steel pipe arched across unstable ground *342
Vertical welder for light gage metals.. *472

WELLS

New York incinerator plant constructed with well points to dry up wet excavation *515
Ohio Valley well supplies slowly depleted O. E. Meinzer *621
Utah Supreme Court decisions confuse underground water law. C. J. Ullrich 487, e496

WHARVES AND DOCKS

California all-welded steel pier to carry cement from plant to ship. R. C. Helen *38
Hudson River to have two piers 1,000 ft. long 563
Japanese quake-resisting quaywall and wharf *287
New York City building three piers of extra size n*789
Wilgus, William J., honored as New York relief head n894, e888
Wisconsin Engineering Society:
Report of Madison meeting n333

WOOD PRESERVATION

Creosoted piles resist borer attack in tidewater—A.W.P.A. meeting..... 383
Service records of treated timber outlines at American Wood Preservers Assn. n180
Timber made fire resistant by magnesium chloride spray 393

Y

Yonge, Samuel H., dies n401

Z

Zoological park near Paris—artificial cliff of reinforced concrete for animals.. *454
